Slots

At Western Fabricating, we only use mill-procured and USA processed sheet metal. All of our fabrication takes place in the USA, with most from our Fort Myers, Florida shop.

We ship anywhere in the United States. Our production line has quality control stops at every operation, allowing for fast turnaround and quantity-order price breaks.

Upload your sketch or drawing on our website for fast, accurate and easy ordering. We provide quick response with accurate pricing and a shop drawing for your approval.
